

Regione Umbria

Le richieste di personale selezionate da EURES Regione Umbria

EURES (EUROpean Employment Services - Servizi Europei per l'Impiego) è una rete di cooperazione tra i servizi per l'impiego dei paesi dello Spazio Economico Europeo (paesi dell'Unione Europea più Norvegia, Islanda e Lichtenstein), la Svizzera e altre organizzazioni partner.

La rete è coordinata dalla Commissione Europea e, a livello nazionale, dal Ministero del Lavoro/ANPAL.

EURES offre servizi di informazione, orientamento, incontro domanda-offerta di lavoro e si rivolge alle imprese e alle persone alla ricerca di un lavoro.

I cittadini interessati a lavorare nei 32 paesi aderenti possono accedere al **Portale Europeo della Mobilità Professionale** <https://ec.europa.eu/eures/public/it/homepage> per avere informazioni sulle condizioni di vita e lavoro e conoscere tutte richieste di personale disponibili.

Per una consulenza personalizzata rivolgersi ai Consiglieri EURES:
Paola Lanari eures@regione.umbria.it - Saied Jowkar eurespg@regione.umbria.it
oppure ai Centri per l'Impiego.

La conoscenza di altre lingue è fondamentale per cercare lavoro in un altro paese, per questa ragione la maggior parte delle offerte sono pubblicate nella lingua richiesta.

Da pag. 1 a pag. 17 una selezione di nuove offerte, da pag. 18 a pag. 24 offerte già segnalate, ma ancora valide

Per vedere tutte le offerte EURES disponibili:

The EUCAST (European Committee on Antimicrobial Susceptibility Testing) Development Laboratory in Växjö (EDL), Sweden, releases a temporary (18 months) agent post as a researcher with the EDL to help developing antimicrobial susceptibility testing criteria for new antimicrobial agents. Tasks: The jobholder will be responsible in particular for the following areas of work: • The planning and execution of testing for the optimal disk load of new antimicrobial agents as part of the EDL's continuous development and revision of disk diffusion criteria for phenotypic susceptibility testing (read more at:

http://www.eucast.org/fileadmin/src/media/PDFs/EUCAST_files/EUCAST_SOPs/EUCAST_SOP_9.0_Disk_diffusion_breakpoints_and_QC_ranges.pdf) • The development of phenotypic susceptibility testing including quality control criteria (read more at: www.eucast.org) • The liaison between the EDL and the WHO CAESAR project (read more at: <http://www.euro.who.int/en/health-topics/disease-prevention/antimicrobial-resistance/about-amr/central-asian-and-eastern-european-surveillance-of-antimicrobial-resistance-caesar>) • Contribute to other EDL activities in his/her field of expertise. All activities will be carried out under the supervision and joint planning of the EUCAST EDL leadership. The jobholder should be prepared to travel internationally to represent the EDL at meetings and conferences. The place of employment will be the EDL, Clinical Microbiology, Central Hospital, 351 85 Växjö, Sweden, where the EDL has its activities. Qualifications: In order to be an eligible candidate, the applicant need to fulfill a set of formal requirements. These requirements are: • A level of education which corresponds to completed university studies of at least five years attested by a diploma; • At least five years of university studies in microbiology or molecular biology or medical sciences; • At least 5 years professional experience (following the award of the diploma), of which at least 3 years experience acquired in positions relevant to the job description; • A scientific background with publications in microbiology; • Having presented posters or given oral talks at major international scientific conferences; • A good understanding of and practice in phenotypic susceptibility testing of microorganisms; • Experience in project management, planning, monitoring and evaluation; • Proven and successful track record for the ability to work collaboratively in an international environment, and build strong working relationships; • Extensive experience in organizing courses/workshops and conferences on antimicrobial susceptibility testing (having organized courses/workshops and/or conferences targeting an international audience is considered a merit) • A documented good understanding of antimicrobial resistance, antimicrobial susceptibility testing (both in theory and practice), EUCAST and the CAESAR Project is considered a merit; • Excellent command of English, both written and spoken. All claims must be substantiated by appropriate certificates or affidavits. Conditions of employment: The jobholder will be recruited as a temporary agent and appointed for a period of 18 months from an agreed date late 2017 or early 2018 Application procedure To apply please send a completed application in English in a Word or PDF format, to Erika Matuschek, EDL, Clinical microbiology, Central Hospital, 351 85 Växjö, Sweden, referring to "EDL researcher 2017" or by e-mail Erika.matuschek@kronoberg.se. All claims must be substantiated by appropriate certificates or affidavits. The closing date for the application is May 2nd 2017.

Make a difference every day Southern Sweden welcomes you and your competence. Trelleborg, the southernmost city in Sweden, is centrally located in Northern Europe. After a 50 minutes train ride you reach Copenhagen International Airport and Northern Germany is just a four hour ferry trip away. Winters are mild and summers are pleasant. Trelleborg is surrounded by scenic farmland with picturesque villages, and a coastline with sandy beaches. Within commuting distance you find Malmö, Sweden's third largest city. The Swedish system is well known for supporting a healthy work/life balance for professionals and a generous social system, including subsidized day care, free higher education and high quality public healthcare. Trelleborg Hospital is a small hospital with three specialized internal medicine wards, orthopedic ward, radiology department, several outpatient clinics and an emergency room. The internal medicine wards specialize in endocrinology, cardiology and neurology and have a total of 55 beds. In addition we plan to start a new ward at the end of year 2017 which is intended for elderly patients with multiple diseases. Here, we are also going to focus on new organizational and digitizing solutions and optimization of staff resources. To maintain an excellent quality of care in our internal medicine wards we are now hiring highly qualified registered nurses. Job description You will work in patient centered teams comprised of one nurse, two nursing assistants and doctors on call. In addition you have access to resources such as a pharmacist, physiotherapists and medical secretaries. We put emphasis on having staff with the highest possible competence. Therefore we have a continuous focus on education and we encourage our staff to participate in relevant courses. Job responsibilities include identifying patients' needs and acting on them, monitoring vital parameters, providing drugs, preparing patients for examinations and treatments and last but not least providing a compassionate environment for the patients. Qualifications We are searching for registered nurses with EU approved certification and proven nursing experience, preferably within the field of internal medicine and/or subspecialties such as cardiology, neurology or endocrinology. To start the position you are required to master Swedish corresponding to level C1. For suitable candidates we will provide Swedish classes, initially in your home country, followed by more advanced classes upon arrival in Sweden. To succeed in the position you need excellent teamwork, communication and problem solving skills. We assume you are hardworking and like to work in a dynamic environment where you are able to make an important contribution to our patients' care. Send CV and cover letter to health@arbetsformedlingen.se Note "Trelleborg 2017" in the subject line

Tipo di contratto: Tempo pieno

ID offerta di lavoro: 4478737

Job Description

Join Intel -and be part of shaping the future. Intel is in the midst of an exciting transformation, with a vision to utilize the power of Moore's Law to bring smart, connected devices to every person on Earth. So join us-and help us create the next generation of audio technologies that will shape the future for decades to come.

As engineer in our audio team in Aalborg, you will have opportunity to contribute to all elements of a best in class audio solution for wireless products.

Cool Responsibilities:

Join and be part of Intel's Communication & Devices Group iCDG in Aalborg. The successful candidate will join a highly dedicated and motivated Audio competence team, who are responsible for delivering high standard audio solutions to all Intel wireless platforms.

As an Audio Software engineer, your key focus areas could include:

- Audio Software and DSP code design and development for wireless products
- Create audio features across Hardware - Firmware - Embedded SW - graphical PC Tools.
- Innovate to match requirements for next generations world class audio solutions
- Develop and product integrate advanced audio signal processing algorithms
- Interfacing with stakeholders to understand deployment scenarios of audio features
- Possible languages and development platforms include C/C++, Assembly, Java/Eclipse RCP.
- Drive feature architecture and concepts across system components
- Working with Intel teams locally and around the globe

Qualifications

Desired skillset:

- Bachelor or Master degree in Computer Science, Software Engineering or equivalent work experience
- Ability to learn and adapt in a rapidly changing environment
- Strong self-motivation and orientation towards results
- Excellent communication, interpersonal skills to work effectively both independently and in a team
- Good oral and written English communication skills.
- Audio acoustic and signal processing knowledge is preferred, but not a must

What we offer you:

We give you opportunity to transform technology and create a better future, by delivering products that touch the lives of every person on earth.

Intel's audio solution are deployed in >1billion mobile phones, and our aspirations are to be best in the world on key performance indicators.

Candidates have opportunity to contribute to both audio signal processing algorithms as well as the full lifecycle activities necessary to deploy products.

As a global leader in innovation and new technology, we foster a collaborative, supportive, and open-minded environment where the brightest minds in the world come together to achieve exceptional results.

We offer a competitive salary and financial benefits such as bonuses, retirement plans, life and disability insurance, excellent medical plans, wellness programs and amenities. Flexible work hours, discounts on various products and services and many more creative perks that make Intel a Great Place to Work!

Inside this Intel Business Group

Intel is one of the largest suppliers of chips for the communications market. The Intel Communications group is focused on designing and building communications technologies such as Ethernet connectivity products, optical components, communications processing solutions and broadband products.

If it's smart and connected, it's best with Intel. If you are smart, connect with us!

ID offerta di lavoro: 4477544

Reporting to the Head of Organic Performance (Southern Europe – LATAM), the Organic Performance Manager - Italy will help drive organic performance through SEO, content marketing, digital PR and social, executing market specific strategies. As an organic performance manager you'll have a passion for SEO, content marketing, social and be a creative thinker with an analytical mind-set. You have experience with on-page SEO initiatives, content operational management, executing digital PR and outreach. Responsibilities You'll be given growth targets for our investment, and revenue goals for organic traffic. You'll also be responsible for growing our organic presence via a wide range of activities, such as: •Supporting your line manager in hitting and exceeding organic revenue and traffic targets for your market by executing integrated digital content strategies •Researching, delivering, managing and executing a long-term content driven SEO strategy for your market •Supporting your manager in tactical content planning with the following major purposes: organic visibility for transactional search queries, outreaching/digital PR campaigns and brand awareness •Sourcing and briefing freelancers and agencies for content production •Being responsible for content publication according to a specific schedule and to high quality standards •Outreaching to third parties in order to create co-promotional and content visibility opportunities •Helping to identify influencers, bloggers, editors and journalists that would be interested in momondo content and stories •Helping to build and maintain long term relations with journalists, influencers and bloggers •Assisting with the monitoring of keyword visibility reports, web analytics data and performance vs. targets to identify areas of opportunity •Continual optimisation efforts to strengthen relevancy, improve positioning and CTRs to maximise traffic Skills and background You should possess great communication skills, be confident in pitching your ideas to your manager and peers within your regional team, and have a good understanding of organic performance across your market. You should also have: •At least one year of experience in an SEO, content or digital PR role, either in a client side or digital agency position. •A native's grasp of Italian (essential) •Experience with successful SEO, content marketing and digital PR or social media campaigns •The ability to execute from day one, with content management and outreaching tasks •A real passion for digital marketing and enjoy keeping abreast of trends, new technology, formats and platforms, etiquette and regulations within the search industry •Good copywriting, subediting and editorial skills •Impeccable organisational and project management skills •Good negotiation, communication and pitching skills (both written and oral) •Good

MS Excel skills and be able to use basic formulas •Working knowledge of common web analytics and SEO analysis tools, (e.g. Google Search Console, Majestic SEO, Ahrefs, Searchmetrics, Google analytics)
•Experience working with CMS platforms (Wordpress would be ideal) and social media scheduling tools
•Experience with working under pressure while being able to deliver exceptional results to strict deadlines
•Experience working within a supported, well-managed environment, with clearly defined goals and responsibilities. •A university degree or proven equivalent experience

We are

momondo is a free, independent and inspirational global travel search site comparing billions of cheap flights, hotels and car hire deals. We think everybody should be able to travel the world, because travelling makes us more open minded and tolerant.

We are a company founded by people with a passion for travel and the wish to provide travellers not only with transparent travel search but also inspirational travel search.

Today we offer a global brand that is more than merely a functionality: it is a bold and colourful travel universe that inspires and enables people to travel the world and to be curious about other people, places cultures and ways of living.

We're over 250 people from more than 40 countries in our office in downtown Copenhagen. We're an enthusiastic and social bunch, who each have our quirks and character traits. We're all passionate about our work and we all take great pride in what we do.

We also offer:

- A unique company atmosphere
- A steep learning curve
- The chance to push your skill set to the max – and add to it
- A great team of social and passionate professionals
- Multiple social events, e.g. wine and beer tasting, football, yoga, Friday bars, foosball
- An awesome office in the city centre of Copenhagen
- Monthly massages

Interested?

Please send us your resume and a motivated application in English. We'll send you an email confirming our receipt of your application, and we'll check it out as soon as we can. We do make a point of getting back to all applicants, successful or not, so we'll reach out to you in the near future to let you know more.

Can you elevate Arla's food innovation to the top of the international major league? Now is your chance to show it. At Arla Innovation Centre (AIC) in Aarhus, Denmark you will be part of a committed team, working daily with the development of new dairy products and technologies. It is our goal to be at the forefront of dairy product development and match the consumer needs worldwide. Even now, we are launching more and more products, and the ability to contribute with original ideas and products for the

consumers is more crucial than ever. Pre-testing tomorrow's dairy products As Food Technician you will be the prime mover for completing pilot scale testing of a wide range of dairy products. This means that you will associate with both external and internal stakeholders to ensure strong knowledge sharing. To be more specific, you will: Perform pre-test within a wide variety of product and technology areas Contribute to the preparation of the test proposal and help plan the trials Act as gatekeeper for projects in the pilot plant from A-Z Be responsible for the practical execution of the trials along with the rest of the team Showcase prototypes within Innovation community Report on observations and raw data Using available IT-systems Secure a safe lean and efficient Plant You will be part of an innovative and creative environment in which you will get the opportunity to handle many different development tasks and unit operations. The position entails a wide contact surface both internally in the department and at the operation sites. Technical insight and food comprehension You are a trained Dairy Technician or Process Technologist, or you possess relevant work experience from the food industry. Furthermore, you have solid understanding of technical contexts and are used to handling equipment and processes. As your trials will determine, which products end up in the customers' baskets, it is important that you act responsibly particular around food safety. As you will work at several dairies and our satellite pilot plants, it is vital that you are flexible and possess sound cooperation skills and are extrovert when meeting new people. You navigate smoothly in a project-oriented environment with many tasks and deadlines, and using your knowledge, commitment and creativity, you succeed in challenging your colleagues and contributing to the development of the department. You master both written and oral English.

Application and contact

We process applications on a continuous basis and close the job opening once the right candidates has been found.

For additional information, please call Innovation Manager, John H. Jensen at +45 8746 6780.

Informazioni sull'impiego

Livello di istruzione richiesto: Non specificato

Durata del contratto: Permanente

Tipo di contratto: Tempo pieno

ID offerta di lavoro: 4478890

Would you like to take on a finance business partner role where you provide site directors and management teams with strategic and financial planning advice? If you can create value and growth, then this is a great opportunity to influence strategy formulations and execution in practice. As part of the global Finance organization, you will work on-site at 2 dairies as their sole finance business partner. You will spend most of your time at the Slagelse site, which also is responsible for distribution to all of Zealand and you spend approximately 1 day per week at the site in Birkum close to Odense. Impact the future site performance Overall, you are the primary financial sparring partner for the local site directors, and you will step into their leadership teams. As such, you become the trusted financial advisor, providing transparency, clarity and helping set direction. Moreover, you participate in and drive major strategic or tactical initiatives, such as cost saving or revenue optimising projects. Furthermore, your tasks include: Owning the numbers in terms of e.g. month-end closing, where you present and own the numbers you receive from the controllers Ongoing monthly and quarterly performance appraisals, including communicating performance throughout the organization to ensure clarity of the financial performance Working with the business to translate financial reporting into definitive priorities and targets Driving the performance dialogue to create actions and initiatives that can be measured on a concrete outcome be it growth, savings etc. Participating in weekly or bi-weekly leadership team meetings Acting as one-point-of-contact for finance questions – and either solving them on your own or sending them on to relevant stakeholders to enable effective and aligned operation of the sites You will enjoy a great deal of sparring with your colleagues at other sites through meetings, projects, sharing best practice etc. You will also receive support from controllers, who take care of the number crunching, allowing you to focus on financial sparring. Sound business and finance acumen You must be able to work independently, sharing your time between 2 sites. Moreover, you have a curious mind-set that encourages you to investigate new possibilities, and you use your business acumen and analytical skills

to successfully overcome complex challenges. Lastly, you foster a work environment of trust and respect, and you are comfortable using your personal power to get your ideas through. To succeed, you: Have a master's degree in finance or equivalent and substantial business controlling competences giving you a well-stocked financial toolbox Have a proven commercial background with 5+ years of experience, preferably from a production site as senior business controller, finance business partner, finance manager or similar Can facilitate the development of action plans to ensure the delivery of strategic targets Ensure that both short term and long term strategic priorities are catered for and aligned to functional and group targets Hold solid stakeholder management skills and communicate effortlessly in English

Regno Unito, LONDON.

Informazioni sull'impiego

Durata del contratto: Permanente

Tipo di contratto: Tempo pieno

ID offerta di lavoro: 42803321

Graduate IT Technical Consultant Job - Graduate, French, Spanish, Italian, German, Languages, Consultant, London, Cambridge, £competitive Since inception this software company has continued to impress the technology world and gain momentum each year winning multiple awards on their path. They are comprised of top software engineers, mathematicians and Machine Learning experts who are creating top class software which is being implemented across the globe. The teams are diverse and intelligent, we are now looking to bring on board a confident Graduate IT Technical Consultant. Ideally you will have some technical knowledge which might include hardware, support or some development this could have been gained from university or in the work place. If you have experience from somewhere else such as a hobby please do feel free to tell us You will have outstanding communication skills both verbally and written alongside a degree from a top ranked university with a 2.1 or better and ideally AAB at A-level. You might have an engineering, science, computing or subject behind you. We would love to speak to candidates that are fluent in another language including Italian, Spanish, French and German. In return you will have the opportunity to travel internationally on behalf of a very prestige company. The team are very much about on the job training so you will receive as much personal; attention as possible. Some of the jobs that you could be involved with could be supporting the pre/sales team, implementing software, liaising directly with clients and learning about a truly fascinating field. The team also like to have some fun so smiles are always welcomed As this amazing software company have already won a stream of awards for their efforts it is probably safe to say they are heading in the right direction. Would you like to be a part of where they are going? To find out more about the Graduate IT Technical Consultant Job Please send your CV Check out my Twitter and LinkedIn: Please be assured that your CV will be treated in the strictest confidence and we would always speak to you before discussing your CV with any potential employer. Computer People are operating as an Employment Agency. Computer People are an equal opportunities employer Keywords: Graduate, Consultant, Job, Software, Language, Mathematicians, French, Italian, Spanish, University, Cambridge, London, German This job was originally posted as www.totaljobs.com/job/70641673

SENIOR OR PRINCIPAL STRUCTURAL ENGINEER - BRIDGES - 1 impiego

Regno Unito, WALES.

Informazioni sull'impiego

Durata del contratto: Permanente

Tipo di contratto: Tempo pieno

ID offerta di lavoro: 42804602 Senior or Principal Structural Engineer - Bridges Salary Details *

Competitive * 23 days holiday * Contributory company pension * Standard Capita Benefits Location:

Cardiff Employment Type: Permanent About the role We are looking to recruit a Senior or Principal Structural Engineer to join our Bridges Structures team. Based out of the Cardiff office, the successful

candidate will have the opportunity to work on the design and delivery of a variety of challenging

schemes. This is an exciting opportunity for an experienced Chartered professional or someone

approaching Chartership. About Us Capita Property and Infrastructure is part of Capita plc, the UK's

leading provider of business process management and integrated professional support service solutions.

We have over 4,000 staff at 50+ offices in the UK and internationally, offering a vast range of

professional and technical expertise across an unrivalled number of services. The breadth and depth of

our experience ensures that we are able to add value to any project, regardless of its size, complexity or

sector. We do much more than simply delivering projects; we design, manage and partner. We focus on

building strategic relationships with our clients - delivering a comprehensive service across their portfolio

and optimising the benefits of continuous improvement in design quality, efficiency, cost reduction and

knowledge retention. We support them at all stages of a project or programme, and our understanding of

the key risks and challenges means that we direct effort where it is most needed. What you will do: *

Produce high quality solutions for bridge projects, applying engineering knowledge and principles to

devise innovative design solutions * Provide technical guidance for the preparation of discrete structural

schemes or specific elements of major improvements, at feasibility, preliminary and detailed design *

Provide technical guidance and support on multi-disciplinary projects and opportunities in the field of

civil/structural engineering in both the highway and rail sectors * Lead project teams and have a proven

background in project delivery and technical excellence. * Undertake the role of CRE on Network Rail

schemes * Experience and working knowledge of structural assessment and design * Develop, supervise

and train junior engineers * Build and maintain good relationships with colleagues and clients and

contribute to the marketing of the Consultancy to potential clients Essential Requirements * Chartered

professional or nearing Chartership with significant post graduate experience. * Ability to successfully

deliver bridge projects and satisfy client requirements. * Experience performing a similar role within a

highway structures team and/or rail team. * Thorough understanding of structural design principles * In

depth knowledge and understanding of the conceptual and detailed design of a broad range of structures

including associated approval procedures * Experience in the use of relevant design standards and codes

of practice including Structural Eurocodes. Desirable Requirements * Excellent standard of oral and

written communication * Proficient in the use of design/analysis software (eg. SAM, LUSAS, Midas,

Superstress) * Familiarity with health & safety legislation and the CDM regulations * Conversant with

Network Rail standards What's in it for you? As well as a generous basic salary we also give you 23 day's

holiday, company pension scheme and access to voluntary benefit options including; child care vouchers,

share ownership scheme, life assurance, holiday buy and many more designed to suit your own personal

lifestyle. Our business is a fast emerging player in the property and infrastructure consultancy markets,

capable of challenging the 'status quo' and delivering outstanding client facing results. There are strong

career opportunities across the Capita group nationwide and overseas, with a strategy of secondment and

resource sharing to enable maximum

MRICS BUILDING SURVEYOR - 1 impiego

Regno Unito, LONDON.

Informazioni sull'impiego

Durata del contratto: Permanente

Tipo di contratto: Tempo pieno

ID offerta di lavoro: 42802412

The world's largest bank is looking for a Building Surveyor to join the property consultancy arm of the business as growth and profits rise for a 4th successive year. You will be joining the firm's 30 strong Building Surveying team in the London office but work as part of smaller team and very closely with an Associate Director before looking to take the step up yourself. As a highly trusted member of the group you will be responsible for managing a graduate surveyor and taking them through the APC. The firm is proud to say it has one of the highest staff retention rates in the property market with 90% of employees having worked for over 5yrs, this is no mean feat for an international corporation. They attribute their success to investing in their employees, this is done through initial introduction days and welcome packs to make you feel at home whilst also providing you with a generous benefits package providing work-life balance and bonuses for all staff. In the role you will work with clients in landed and corporate real estate providing expert knowledge in the design and contract administration of repair, maintenance and refurbishment projects. You will also gain exposure in Tech due diligence, building pathology and dilapidations to name a few, which, all in all, makes this a good all round role. Working with clients making up most of the FTSE 100 you will work in some of the most prestigious London locations and provide modern office space in a rapidly changing sector. This is a great role if you team environment means a lot to you. The building surveying team like to meet up for networking events on behalf of the company but also socially. But you will also get to socialise with a wider range of colleagues through the company restaurant, sports teams and facilities etc. Requirements Ideally MRICS Building Surveyor Property or construction consultancy experience BSc Building Surveying In return Salary of up to £55,000 DOE Bonus structure Car allowance Much more A role with this much scope for progression and with such a highly regarded company is unlikely to be around for long so for more info, click apply now or call Pete Ward on 0207 183 2482. PROJECT MANAGER (M/F) Arbeitsort: Berlin - 1 impiego

Germania, Berlin. 6 giorni fa

Informazioni sull'impiego

Lingue richieste: Tedesco (buono) - Inglese (ottimo)

Esperienza richiesta: Richiesta

Livello di istruzione richiesto: Non specificato

Data di inizio: 01/05/2017

Durata del contratto: Permanente

Tipo di contratto: Tempo pieno

ID offerta di lavoro: 10000-1152786643-S

Nowtilus provides video content services for Broadcasters, OTT service providers, cable and telco operators and Studios in a managed way or as a SaaS offering. Our proprietary backend platform NEMO Bridge® is a cloud-based Workflow Orchestration Platform for IP Video Delivery built on a microservice architecture. It allows to simply manage workflows across 3rd party components and cloud media-services to stream Live TV, to prep Video-on-Demand assets and to enable the monetization with Dynamic Ad-Insertion. It's integrated in public clouds to provide end-to-end media workflows for IP-based OTT and IPTV delivery in broadcast-like quality.

An exciting opportunity with this dynamic and fast-growing business awaits the right candidate. This is a busy, high-volume but friendly environment that will suit an organized person with a great eye for detail and plenty of team spirit.

Reporting to our Chef Product Officer, you will be adept at managing and overseeing multiple projects. You will have extensive experience in project management methodologies and technologies, and a familiarity with the full product development lifecycle. You feel comfortable to communicate with partners and key accounts regularly. You are familiar with agile development methods such as scrum and can organize projects and work streams with Kanban.

As the project manager, you will help to minimize cost and implementation risks, and provide the required liaison, documentation and everyday management of projects, while ensuring that our platform product and related services are risk managed, budgeted effectively and delivered in a timely manner. Our fast-paced and supportive environment will offer you lots of benefits – a competitive salary, flexible working arrangements and opportunities for training and development.

Your responsibilities will include:

- Managing Nowtilus' relationship with customers, vendors, contractors and other parties, by acting as the central point of contact
- Implementing Carrier grade solutions for live linear and VoD content delivery on a broader level
- Planning, executing, monitoring and closing projects
- Performing quality assurance and risk management
- Managing project team members
- Project budget and scheduling estimation and management
- Engaging with stakeholders and managing internal, external and third party relationships
- IT infrastructure, network and integration project delivery
- Conducting status review meetings with team members and clients
- Providing reports and documentation on project stage and Progress

You will need:

- At least five years experience in the IT industry with a desirable focus on media and video delivery.
- At least three years' experience in a project management role and working experience with the Kanban method
- Knowledge and experience with agile scrum development. It would be beneficial if you have worked as a product owner or scrum master.
- A bachelor's or higher degree in Business Administration, Computer Science or a related field
- Experience in vendor sourcing and management
- Knowledge of industry standards in broadcast and information technology as well as project management
- High level of competence in using Microsoft Office, Microsoft Project and comparable software
- Solid stakeholder management skills with a consultative approach to engaging with clients
- Ability to manage projects of up to 12 months duration, and up to seven digit € revenue, with multiple suppliers
- Advanced communication skills in German and English language

If this sounds like the right place and position for you, we'd love to hear from you. Please send yo...

OFFERTE GIA' SEGNALATE, MA ANCORA VALIDE

EURES Regione Piemonte

INFERMIERI/E (M/F)

n. 15 posti

Un Centro ospedaliero di Bruxelles è attualmente alla ricerca di infermieri/e (m/f) da inserire in differenti settori/reparti. I reparti/settori disponibili sono i seguenti: anestesia, oncologia, pneumologia, gastroenterologia, sala operatoria, radioterapia, neurologia, cardiologia e pediatria.

La missione della clinica è triplice: fornire assistenza ai pazienti, formare ottimi professionisti del settore sanitario e condurre ambiziosi programmi di ricerca clinica nei settori più avanzati. Il paziente è al centro delle preoccupazioni di 5.000 dipendenti. La clinica è uno dei principali datori di lavoro privati nella regione

di Bruxelles-Capitale.

Compiti

- Realizzare l'anamnesi infermieristica, analizzare ed interpretare i dati/le informazioni
- Stabilire una diagnosi infermieristica e convalidarla in collaborazione con il paziente ed i suoi parenti
- Elaborare il programma di trattamento/cure per ogni paziente in coerenza con il progetto di assistenza ed effettuarne la valutazione
- Applicare tutte le misure di prevenzione necessarie verso i pazienti per evitare l'apparizione di eventi sentinella
- Rispettare la legislazione, le tecniche di cura, i protocolli e le procedure istituzionali
- Impegnarsi nella crescita professionale
- Dimostrare senso di osservazione, discernimento e giudizio
- Dar prova di creatività, riflessione ed essere attori di cambiamento all'interno del proprio team
- Instaurare e mantenere relazioni amichevoli con i pazienti, i loro parenti, i membri del team multidisciplinare e gli altri servizi ospedalieri
- Informare il paziente sulle cure prodigate, gli esami programmati ed i trattamenti stabiliti e verificare il livello di integrazione delle informazioni fornite
- Trasmettere tutte le informazioni rilevanti usando un linguaggio professionale

Profilo

- Laurea in Infermieristica
- Si richiede un **buon livello di francese (B2 minimo)**
- In funzione dei servizi indicati, è auspicabile una specializzazione nei seguenti settori: oncologia, anestesia, terapia intensiva, assistenza medica d'urgenza, sala operatoria, imaging medicale, pediatria e neonatologia

Competenze :

- Qualità umane e relazionali
- Senso di Responsabilità
- Attitudine al lavoro in team pluridisciplinari
- Resistenza allo stress
- Senso dell'organizzazione del lavoro
- Capacità di imparare nuove tecniche di cura/trattamento

Luogo di lavoro: Bruxelles

Tipo di contratto: Contratto a Tempo Indeterminato a part-time (50% o 80%) o a tempo pieno a seconda della posizione

Orario di lavoro: Per la maggior parte delle posizioni, dalle 8:00 alle 20:00 dal lunedì al venerdì. Per alcune posizioni, è necessario lavorare 1 week-end su 2.

Remunerazione : stipendio conforme alle tariffe di settore con in aggiunta alcuni benefici (sovvenzione per le spese di trasporto, riduzione del costo del ristorante aziendale, ecc.).

Sarà valutata l'esperienza in ambito ospedaliero

Società di Torino cerca 100 FOTOGRAFI con e senza esperienza da inserire in 87 rinomati villaggi turistici in Italia e all'Estero (T.O. Club Med, I Grandi Viaggi, Veratour, Delphina, Catalonia, Barcelò, Iberostar, Princess, etc.)

Tipologia Contrattuale e retribuzione

In Europa contratto a tempo determinato (min. 3 mesi) fisso & provvigioni,

All'estero contratto locale min. 5-6 mesi.

Impegno full time

Le retribuzioni per la prima stagione variano da un minimo di €800 lordi (senza esperienza o esperienza minima lavorativa) ad un massimo € 1.300 lordi (Responsabile fotografi) mensili.

Trattasi di anticipo provvigioni, in aggiunta ci sarà un incentivo in termini di percentuale sul fatturato totale realizzato dal gruppo (L'anticipo delle provvigioni rappresenta lo stipendio stabilito e garantito, e sarà pagato **indipendentemente** da come andrà la stagione).

Possibile il rinnovo contrattuale in seguito al primo contratto.

L'azienda fornisce: vitto, alloggio, viaggio, assicurazione infortuni e attrezzatura fotografica.

Requisiti Preferenziali:

Ottimo italiano + inglese/francese intermedio.

Predisposizione pubbliche relazioni, spirito di adattamento

Anche senza esperienza.

Età preferibile tra i 18 e max 35 anni

Sede di Lavoro: Italia Sud e Isole, Francia, Spagna, Grecia, Guadalupe, Rep.

Dominicana, Messico, Malesia, Maldive.

SELEZIONI IN TUTTA ITALIA. Modalità di Selezione

La prima selezione sarà un colloquio conoscitivo di gruppo e individuale finale nella stessa mattinata.

Se il colloquio avrà esito positivo, il candidato dovrà partecipare ad una ulteriore selezione di 2 giorni a Torino, che prevede la partecipazione gratuita (i pasti per le due giornate e il pernottamento in albergo saranno a carico dell'Azienda, **a carico del candidato saranno le sole spese di viaggio**). Saranno organizzate selezioni in varie città italiane.

Per inviare la propria candidatura:

www.ilgruppodigitale.com nella sezione Lavora con noi, cliccare su "INVIA IL TUO CV", compilare il Format, allegare una fotografia recente e **citare fonte EURES**.

EURES Germania

Nell'ambito delle Rete Eures si ricercano **infermieri geriatrici** per una casa di cura per anziani nella località di Fremdingen, in **Baviera**. La struttura, situata in un castello, ha al suo interno un organico composto da dipendenti motivati e offre ai suoi residenti non solo un servizio professionale di alto livello ma anche sostegno spirituale. Le nuove risorse si occuperanno dell'**assistenza di base degli anziani** e del loro supporto nelle attività quotidiane.

Requisiti richiesti:

- Laurea Infermieristica
- Conoscenza minima del tedesco a livello A2
- Buona capacità di comunicazione.

La struttura offre la possibilità di un **contratto a tempo indeterminato** con i contributi di sicurezza sociale. Le nuove risorse saranno assunte con la qualifica di assistente infermiere fino al conseguimento del livello B2 della lingua tedesca. L'orario di lavoro è a tempo pieno. L'ambiente di lavoro è piacevole. Si riceverà, inoltre, assistenza per il disbrigo delle pratiche amministrative e nella ricerca di un alloggio. Nel caso di necessità, l'assistenza sarà offerta fino a sei mesi dall'assunzione.

Gli interessati possono inviare la propria candidatura in tedesco o inglese a ZAV-IPS-Bayern@arbeitsagentur.de indicando l'Id: KG-302.
